ANNOUNCEMENT

As the illustration shows we have acquired the premises 516 Market Street which extends through to Ludlow Street adjoining our original property in the rear; giving us an additional 20,700 square feet of floor space in this four story and basement building, 23 feet wide and 180 feet deep.

At American and Dauphin Streets, Philadelphia, we have acquired, through purchase, a modern warehouse, 68 ft. x 130 ft. four stories high; this building is equipped with a railroad siding accommodating 2 cars which extends into the premises allowing us to load and unload under cover; at this point will be received and shipped the bulky items in our business, which materially improves our facilities for shipping by freight.

NOTICE TO CUSTOMERS OUTSIDE OF THE UNITED STATES

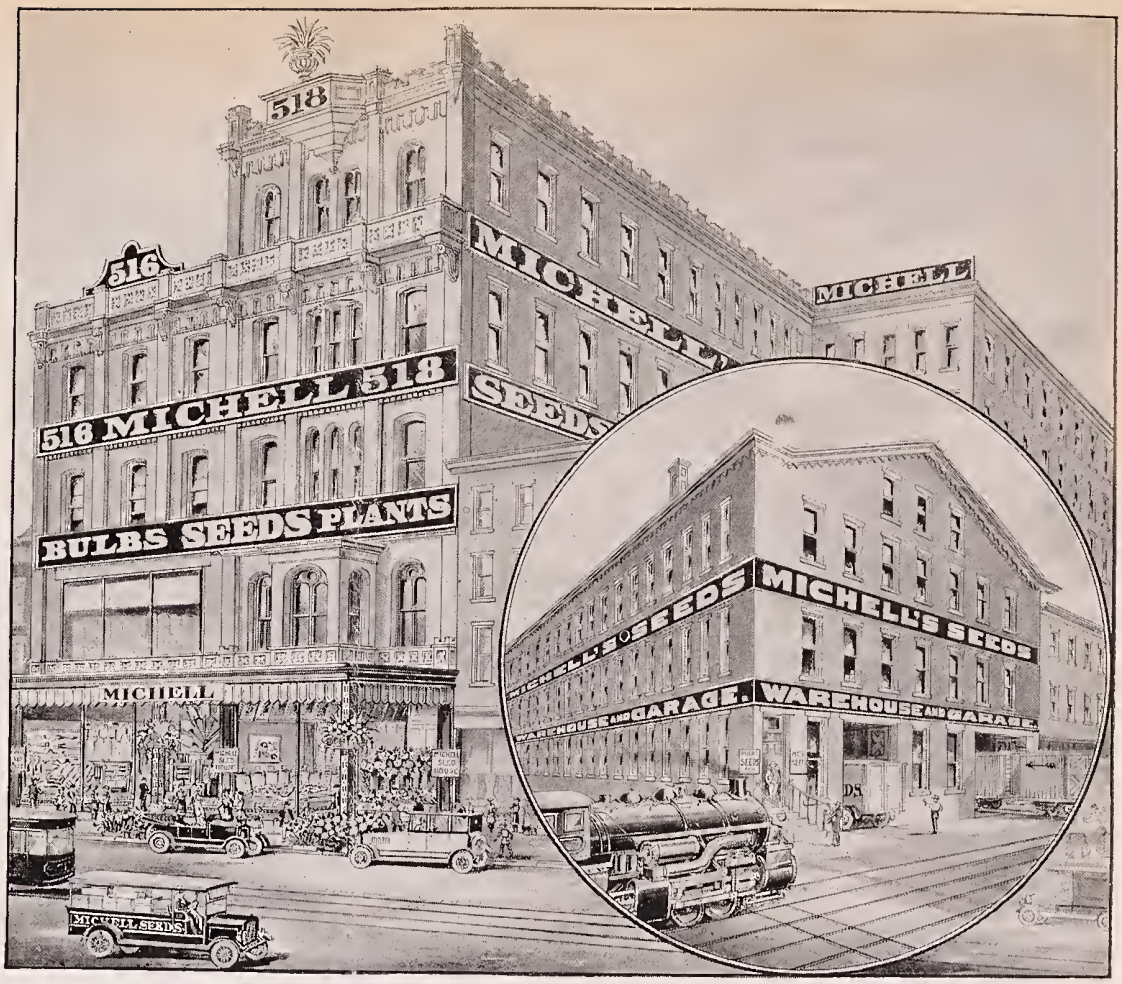
In remitting for purchases at the time of ordering, or when paying accounts, by reason of the Exchange we ask that you please send P. O. Money order in U. S. Funds or a check or draft on a New York or Philadelphia Bank in par U. S. Funds.

PLEASE NOTE WHEN DESIRING TO OPEN AN ACCOUNT

When sending your first charge order, refer preferably to someone in either your own or our line of business with who you have a charge account. This frequently saves delays.

DISCOUNTS

On bills for Flower, Vegetable Seeds and Bulbs, a discount of 2 per cent. for payment 10 days from date of bill may be deducted; if cash accompanies the order, 3 per cent. may be deducted on such items. All other goods are strictly net, as are also bills for goods supplied under special quotations unless otherwise agreed upon.



We cannot make shipments of Plants or Cold Storage Bulbs C. O. D., and shipments of goods C. O. D. outside of our automobile delivery limits can only be made that way provided a partial remittance is sent with the order to guarantee that the goods will be accepted on arrival.

IMPORTANT NOTICE—All shipments of plants, perishable stock and cold storage bulbs are made at buyers' risk only.

If such shipments arrive in bad condition, accept them and receipt for them accordingly, and make claim for your loss on the transportation company. We, of course, will hold ourselves ready to assist you in any possible way. It has been found that claims can be collected more readily by the person receiving the goods than by the shipper.

Our custom to guarantee the **actual arrival** of goods, except at points where there is no freight or express agent, will still be continued, and claims for loss or **non-arrival** of merchandise **not perishable** will, as in the past, be cared for by us, so you run no risk of having to make claims for lost goods.

CONDITIONS OF SALES

All contracts, sales and acknowledgments of orders are contingent upon crop failures, partial deliveries by growers or manufacturers, strikes, or other unavoidable causes beyond our control; also unsatisfactory credit standing. All quotations are subject to market changes and goods being unsold on receipt of order. Henry F. Michell Co. give no warranty, expressed or implied, as to the description, purity or productiveness of any seeds, plants or bulbs they send out, and they cannot be in any way responsible for the crop. If the customer does not accept the goods on these terms, they can be returned at once and no sale has been made.

MICHELL'S "SUPERIOR" MUSHROOM SPAWN

If wanted by mail allow for postage at the rate of 10c. per brick.

Mushrooms can be grown in a greenhouse or a cellar. A crop is produced with good spawn, a little care and patience in about 4 to 6 weeks, and continues in bearing about two months. New beds can be started at intervals which will give a supply the entire season. The first planting can be made in July, the last in March. Summer spawned beds do not bear well. Ask for our Free Booklet on Mushroom Culture, which also describes, further, these different spawns. 1 Brick will spawn 8 to 10 sq. ft.

MICHELL'S

SPENCER-ORCHID (Early Winter Flowering) SWEET PEAS

for blooming under glass

Winter flowering Sweet Peas are usually sown in September for a Christmas and New Year's crop and, of course, for lasting well during the winter, they can be grown in a much lower temperature than is required for most blooming crops under glass. The demand is always great, so that they should form a large part of every florist's cut flower crop, demanding always a good price.
